

Rescue the *feast.*

A marketplace that helps restaurants, bakeries and supermarkets sell their unsold food at 50-70% off
- feeding people for less and keeping good food out of landfill.

THE PROBLEM

A third of all food is wasted - while it is still perfectly good.

1/3

of food produced globally is thrown away every year.

~\$1T

of value lost annually to food waste worldwide.

8-10%

of global greenhouse-gas emissions come from food waste.

Restaurants and bakeries bin unsold meals every single night. Customers want quality food for less. Nobody connects them - especially in Central Asia.

THE SOLUTION

Surplus food, beautifully matched to hungry neighbours.

- > Kitchens list end-of-day surplus in seconds.
- > Customers discover discounted meals nearby on a live map.
- > Reserve, pay online, collect with a QR code - zero waste.

Good food was never meant for the bin. We make rescuing it effortless - and rewarding for everyone.

From kitchen surplus to your table in under a minute.

01

Discover

Browse surprise bags and discounted dishes from kitchens nearby, updated live.

02

Reserve & pay

Lock it in seconds with online payment. Real-time stock - what you see is what's left.

03

Collect

Show your QR pickup code, grab your food, enjoy a meal that would have been wasted.

A full platform, already shipped.

AI listings & pricing

Auto-writes appetising copy and the optimal 30/50/70% discount.

Live inventory

WebSocket stock updates across all users - no overselling.

Map discovery

Geocoded hyperlocal search plus a personalised For-You feed.

Payments & QR

Online checkout (Stripe / Kaspi-ready) and QR pickup codes.

Impact analytics

Meals saved, money recovered and CO2 avoided per partner.

Reviews & ratings

Verified-buyer reviews build trust and quality.

Vetted onboarding

Every restaurant is reviewed before going live.

Web + mobile-ready

Next.js front end, NestJS API, live in production.

MARKET

A first-mover in Central Asia.

\$2.3B+

Kazakhstan food-service market,
growing double digits.

50K

restaurants, cafes and bakeries -
our supply side.

0

global surplus-food players
operate here yet.

Phase 1: Astana & Almaty > Phase 2: Shymkent, Karaganda > Phase 3: all of Central Asia > Phase 4: grocery, hotels, university canteens.

Three revenue streams, asset-light.

Core

10-15% commission

on every order - pure marketplace economics, zero inventory risk.

Recurring

Premium subscription

advanced analytics, AI pricing and priority placement for restaurants.

Ads

Featured listings

restaurants pay to appear first in the feed and on the map.

Every order is profitable margin - we never hold stock and never touch the food.

WHY NOW

Built, live, and ready to scale.

- > Working product in production - discovery, payments, QR pickup, analytics.
- > AI and real-time inventory baked in from day one, not bolted on later.
- > Rising eco-awareness and tighter margins make this a must-have for kitchens.
- > No incumbent in Kazakhstan - a clear land-grab window.

THE ASK

Pre-seed to win the Kazakhstan market.

We are raising a pre-seed round to onboard the first hundreds of restaurants in Astana and Almaty, integrate Kaspi/Halyk payments, and prove unit economics - then expand across Central Asia.
